TREE ASSEMBLY INSTRUCTIONS

Congratulations on purchasing your new tree from **Polygroup®!**

This tree comes with Fast Shape™ technology which takes less than 10 minutes to set up and light up! Carefully follow the instructions below on how to assemble your new tree quickly and at ease:

1. Choose an appropriate location near a wall outlet.
2. Assemble the tree stand (**Fig. A**) and place on a level surface.

Fig. A - Tree Stand Assembly

Pull apart tree stand legs until they snap and form an 'X' shape.

To close the stand, press the metal button and fold the legs together.

Fig. B - Tree and Light Assembly

***Electrical Rating For The Tree
(For Indoor Use Only)**
2.72A 120V 60Hz

3. Each tree section is numbered with a sticker. Please identify all sections before assembling.
4. Assemble the tree from the bottom to the top. Insert the pole of Section 1 into the assembled stand. Insert the pole of Section 2 into Section 1. Insert the pole of the Section 3 into Section 2. Insert the pole of the tree top into Section 3. Ensure that all poles are firmly secure. Be sure that all wires are free of branch hinges.
5. Connect plugs to extension cords of the same color, and then insert green label plug into the wall outlet (**See Fig. B**). Your entire tree should now be lit.
6. This tree is constructed with Fast Shape™ technology. Shaping is not necessary; you just need to slightly upsweep all tips and shift branches to fill in any gaps for a fuller, uniform look. Your Christmas tree is now ready to be decorated.

STORAGE INSTRUCTIONS

1. Unplug power cord from the wall outlet first and then remove all ornaments and decorations.
2. Disassemble the tree from the top to the bottom. Start with the tree top and gently lift straight up to remove from section below and fold all branches toward the pole.
3. In case of difficulty separating the tree pole (trunk), apply a small amount of lubricant at the joint and rotate the upper pole in both directions. Lift up the upper pole again.
4. Continue by gently lifting each section straight up from the section below, and fold all branches toward the pole until the bottom section is removed from the tree stand.
5. Carefully place all tree sections into shipping box and tape it shut.
6. When not in use, please store your tree in a cool, dry place away from sunlight. Exposing your tree to excessive heat or humidity may damage your tree.

TROUBLESHOOTING TIPS

If The Tree Does Not Illuminate / Some Bulbs Do Not Light or Flicker

1. Please check to make sure that all plugs are properly connected according to the color labels indicated in **Fig.B** and the power cord is plugged into the wall outlet. Refer to assembly guide for instructions.
2. Please check for blown fuses at the light string plugs and power cord plug. Replace as needed.
Note: Please make sure to use appropriate replacement fuses as indicated on the light string plug and power cord plug.
3. Please check for loose, broken or missing light bulbs and replace as needed.

Loose Hinge Pin

1. Extra hinge pins are included for repairing the hinges.
Place the branch into the slot of the bracket.
2. Insert a new hinge pin through the hole and secure using the retainer washer. (**See Fig. C**)

SPARE PARTS

This tree includes hinge pins/washers, and spare bulbs and fuses.
If extra parts are needed, please contact our customer service center.

CUSTOMER SERVICE FOR CHRISTMAS TREES

For any questions, assistance, or missing parts, Do Not Return To Place Of Purchase. Please contact us at **1-888-919-0070** or visit our website at www.polygroupstore.com. One of our customer service representatives will be happy to assist you.
