3. Insert the pole of the tree top into Tree Bottom until firmly secured.
4. Shape the tree from the bottom to the top. Start with the branches farthest from the pole – fan out in a star shape (**Fig. C**), and continue until the entire tree is shaped.

5. Slightly upsweep all tips for a fuller, uniform look. Shift branches to fill in any gaps. Your Christmas tree is now ready to be decorated.

STORAGE INSTRUCTIONS

1. Remove all ornaments and decorations.
2. Disassemble the tree from the top to the bottom. Gently lift the pole straight up to remove from the section below, and fold all branches toward the pole.
3. NOTE: In case of difficulty separating the poles, apply a small amount of lubricant at the joint, rotate the upper pole in both directions, and lift the upper pole again.
4. Carefully place all tree sections into the shipping box and tape it shut.
5. When not in use, please store your tree in a cool, dry place away from sunlight. Exposing your tree to excessive heat or humidity may damage your tree.
6. Keep out of reach of pets and children.
