TREE ASSEMBLY INSTRUCTIONS

Congratulations on purchasing your new tree from **Polygroup®!**

Carefully follow the instructions below on how to quickly and easily set up your new tree.

1. Before you start to assemble your tree, choose an appropriate location near a wall outlet.
2. Assemble your tree on a level surface (**Tree Stand**).

Tree Stand

Fig. B - Tree and Light Assembly

*** Electrical Rating For The Tree
(For Indoor Use Only)**
120V, 60Hz, 0.17A

3. Please identify all sections before assembling.
4. Carefully insert the tree body into the assembled stand. Make sure the pole is firmly inserted into stand.
5. Allow branches to fall into place or gently pull up and out. When adjusting branches, be sure that all wires are free of branch hinges.
6. Insert plug into the wall outlet (**See Fig. B**), your entire tree should now be lit. If some bulbs do not light or flicker, search for any loose plugs and/or broken, loose or missing bulbs. Connecting the plugs or replace the bad bulbs promptly in order to maintain the performance and life expectancy of your pre-lit tree.
7. Begin to shape the branches and tips working from the bottom to the top. Start with tips farthest from the pole and fan out one to the right, one to the left and one at the center of the main stem. (**See Fig. C**)

Side view

8. After shaping the entire tree following the previous step, slightly upsweep all branch tips for a uniform look. Shift branches to fill any gaps. Your Christmas tree is now complete and ready to be decorated.

STORAGE INSTRUCTIONS

1. Remove all ornaments and decorations. First unplug power cord from the wall outlet and then disconnect light extension cord between each section of the tree.
2. Disassemble the tree from the top to the bottom. Start with the tree top and gently lift straight up to remove from section below and fold all branches toward the pole.
3. In case of difficulty separating the tree pole (trunk), apply a small amount of lubricant at the joint and rotate the upper pole in both directions. Lift up the upper pole again.
4. Continue by gently lifting straight up each section(s) from the section below and fold all branches toward the pole until the bottom section is removed from the tree stand.
5. Carefully place all tree sections into shipping box and tape it shut.
6. When not in use, please store your tree in a cool, dry place away from sunlight. Exposing your tree to excessive heat or humidity may damage your tree.

TROUBLESHOOTING TIPS

For Pre-lit Trees, If The Tree Does Not Illuminate

1. Please check to make sure that all plugs are properly connected according to the color labels indicated in **Fig.B** and the power cord is plugged into the wall outlet. Refer to assembly guide for instructions.
2. Please check for blown fuses at the light string plugs and power cord plug. Replace as needed.
Note: Please make sure to use appropriate replacement fuses as indicated on the light string plug and power cord plug.
3. Please check for loose, broken or missing light bulbs and replace as needed.

SPARE PARTS

For pre-lit trees spare bulbs and fuses are also included.

If extra parts are needed, please contact our customer service center.

CUSTOMER SERVICE FOR CHRISTMAS TREES

For any questions, assistance, or missing parts, **Do Not Return To Place Of Purchase**. Please contact us at +1 (888) 919-0070 or visit our website at www.polygroupstore.com. One of our customer service representatives will be happy to assist you.
